Subject: National Environmental Achievement Track Application
For Charter Membership
Blue Circle North America, Blue Circle Aggregates, Inc.
Douglasville Quarry

To Whom It May Concern,

Attached please find the National Environmental Achievement Track application for Blue Circle North America, Blue Circle Aggregates, Inc., Douglasville Quarry, located on 6505 Bankhead Highway, Douglasville, Georgia, 30134. Included in the application are the Environmental Requirements Checklist, a matrix for Section C, question 1, and a matrix for Section C, question 2.

Blue Circle is looking forward to working with the Environmental Protection Agency as a Charter member of the Performance Track program. Please call me, or the Blue Circle contact person, Tim Tankersley, Director of Environmental Affairs, if you have any questions or need additional information.

Sincerely,

Cathy Amoroso
Senior Project Manager

Enclosure

***National
Environmental
Achievement Track
Application Form***

Blue Circle Aggregates - Douglasville Quarry

Name of facility

Blue Circle North America (BCNA), Blue Circle Industries, PLC

Name of parent company (if any)

Blue Circle Aggregates, Inc.

Street address

1880-F Beaver Ridge Circle

Street address (continued)

Norcross/Georgia/30071-3833

City/State/Zip code

Give us information about your contact person for the
National Environmental Achievement Track Program.

Name Tim Tankersley

Title Director of Environmental Affairs for Blue Circle Aggregates, Inc.

Phone 770-797-2070

Fax 770-797-9553

E-mail tktankersley@bluecir.com

Why do we need this information?

EPA needs background information on your facility to evaluate your application.

What do you need to do?

- Provide background information on your facility.
- Identify your environmental requirements.

Section A

Tell us about your facility.

1 What do you do or make at your facility?

Manufacture and sale of heavy building materials, including quarry extraction of aggregates (broken stone and similar material) used as a component of concrete or for supply to the building materials market. These materials are necessary to build roads, bridges, buildings, homes, and other essential structures.

2 List the Standard Industrial Classification (SIC) code(s) or North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.

SIC
1423 Crushed and Broken Stone

NAICS

3 Does your company meet the Small Business Administration definition of a small business for your sector?

☐ Yes ☒ No

4 How many employees (full-time equivalents) currently work at your facility?

- ☒ Fewer than 50
☐ 50-99
☐ 100-499
☐ 500-1,000
☐ More than 1,000

Section A, continued

- 5 Does your facility have an EPA ID number(s)? ☐ Yes ☒ No

If yes, list in the right-hand column.

- 6 Identify the environmental requirements that apply to your facility. Use the Environmental Requirements Checklist, at the back of the instructions, as a reference. List your requirements to the right *or* enclose a completed Checklist with your application.

See checklist enclosed

- 7 Check the appropriate box in the right-hand column.

- ☐ I've listed the requirements above.
☒ I've enclosed the Checklist with my application.

- 8 Optional: Is there anything else you would like to tell us about your facility?

This application applies to the Blue Circle Aggregates' Douglasville Quarry, located in Douglasville, Georgia.
- As of 1998, the facility has an ISO14001-compatible EMS.
- In August 2000, the facility won an honorable mention in the 2000 Governor's Pollution Prevention Award competition.
- The facility has an ongoing operational improvement program, which uses employee suggestions to improve operations and environmental performance.

Why do we need this information?

Facilities must have an operating Environmental Management System (EMS) that meets certain requirements.

What do you need to do?

- Confirm that your EMS meets the Achievement Track requirements.
- Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Section B

Tell us about your EMS.

1 Check **yes** if your EMS meets the requirements for each element below as defined in the instructions.

a. Environmental policy

☒ Yes

b. Planning

☒ Yes

c. Implementation and operation

☒ Yes

d. Checking and corrective action

☒ Yes

e. Management review

☒ Yes

2 Have you completed at least one EMS cycle (plan-do-check-act)?

☒ Yes

3 Did this cycle include both an EMS and a compliance audit?

☒ Yes

4 Have you completed an objective self-assessment or third-party assessment of your EMS?

☒ Yes

If yes, what method of EMS assessment did you use?

☒ Self-assessment

☐ GEMI

☒ Other

☐ CEMP An ISO14001-type, annual internal EMS audit is conducted at the facility

☒ Third-party assessment

☐ ISO 14001 Certification

☒ Other In 1997, GA Pollution Prevention Division conducted an audit to identify pollution prevention opportunities. In 1998, GaTech audited the EMS for ISO14001 compatibility.

Section C

Tell us about your past achievements and future commitments.

Why do we need this information?

Facilities must show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

- 1 Describe your past achievements for at least two environmental aspects. If you need more space than is provided, attach copies of this page.

Note to small facilities: If you qualify as a small facility as defined in the instructions, you are required to report past achievement for at least one environmental aspect.

First aspect you've selected

| What aspect have you selected? | What was the previous level (2 years ago)? | | What is the current level? | |
|--|--|-------|----------------------------|-------|
| | Quantity | Units | Quantity | Units |
| SEE ATTACHED MATRIX for past achievements at the Douglasville Quarry | | | | |
| i. How is the current level an improvement over the previous level? | | | | |
| ii. How did you achieve this improvement? | | | | |

- d. What is the improvement you are committing to over the next three years? You may choose to state this as an absolute value or in terms of units of production or output.
- ☐ Option A: Absolute value (Quantity/Units)
- ☐ Option B: In terms of units of production or output (Quantity/Units)
- e. How will you achieve this improvement?

Second aspect you've selected

- a. What is the aspect? SEE ATTACHED MATRIX
- b. Is this aspect identified as significant in your EMS? ☐ Yes ☐ No
- c. What is the current level? You may choose to state this as an absolute value or in terms of units of production or output.
- ☐ Option A: Absolute value (Quantity/Units)
- ☐ Option B: In terms of units of production or output (Quantity/Units)
- d. What is the improvement you are committing to over the next three years? You may choose to state this as an absolute value or in terms of units of production or output.
- ☐ Option A: Absolute value (Quantity/Units)
- ☐ Option B: In terms of units of production or output (Quantity/Units)
- e. How will you achieve this improvement?

Third aspect you've selected

- a. What is the aspect? SEE ATTACHED MATRIX
- b. Is this aspect identified as significant in your EMS? ☐ Yes ☐ No
- c. What is the current level? You may choose to state this as an absolute value or in terms of units of production or output.
- ☐ Option A: Absolute value (Quantity/Units)
- ☐ Option B: In terms of units of production or output (Quantity/Units)
- d. What is the improvement you are committing to over the next three years? You may choose to state this as an absolute value or in terms of units of production or output.
- ☐ Option A: Absolute value (Quantity/Units)
- ☐ Option B: In terms of units of production or output (Quantity/Units)
- e. How will you achieve this improvement?

Fourth aspect you've selected

- a. What is the aspect? SEE ATTACHED MATRIX
- b. Is this aspect identified as significant in your EMS? ☐ Yes ☐ No
- c. What is the current level? You may choose to state this as an absolute value or in terms of units of production or output.
- ☐ Option A: Absolute value (Quantity/Units)
- ☐ Option B: In terms of units of production or output (Quantity/Units)
- d. What is the improvement you are committing to over the next three years? You may choose to state this as an absolute value or in terms of units of production or output.
- ☐ Option A: Absolute value (Quantity/Units)
- ☐ Option B: In terms of units of production or output (Quantity/Units)

e. How will you achieve this improvement?

Section D

Tell us about your public outreach and reporting.

Why do we need this information?

Facilities must demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

What do you need to do?

- Describe your approach to public outreach.
- List three references who are familiar with your facility.

1 How do you identify and respond to community concerns?

The EMS has specific external communications policies, procedures and work instructions. The system is audited. The facility maintains a telephone contact list of neighbors who wish to be notified prior to blasting activities. The facility monitors nearby neighbors for vibration and noise from blasting, including the property of any neighbors who specifically request monitoring. All public information requests are handled directly by Environmental Services in accordance with the EMS procedure. Complaints are handled per the EMS procedures, including documenting complaints on a specific form, documenting followup actions, responsibilities and followup dates. This information is distributed to management. Complaints are handled by the plant manager or designee.

2 How do you inform community members of important matters that affect them?

Interested neighbors are notified of blasting activity via telephone communications. Meetings with County and City officials, and with the public, are held on an as-needed basis. The facility is involved with the local community through the Partnership in Education Program at area schools. This program provides a vital link between the facility the local community.

3 How will you make the Achievement Track Annual Performance Report available to the public?

- ☐ Website www.
☐ Newspaper
☐ Open Houses
☒ Other

The Annual Performance Report will be posted at the facility scale house. The Report will be posted on the company intranet for employee use. A press release will be issued regarding the findings and the availability of the Annual Report. Blue Circle also commits to considering, over the next year, additional methods of making the Annual Report available to the public, possibly including a newsletter or public website. It should be noted that Blue Circle issues a public annual environmental report for the entire Blue Circle Industries LLC group.

4 Are there any ongoing citizen suits against your facility?

- ☐ Yes ☒ No

If yes, describe briefly in the right-hand column.

5 List references below

| | <i>Organization</i> | <i>Name</i> | <i>Phone number</i> |
|--|--|----------------|---------------------|
| <i>Representative of a Community/Citizen Group</i> | Bright Star Elementary School | Marian Doulaud | 770-920-4120 |
| <i>State/Local Regulator</i> | Georgia Environmental Protection Division, Northwest Regional Office | Tony Campbell | 770-362-2671 |
| <i>Other community/local reference</i> | Douglasville Quarry: Douglasville County Commissioner | Deborah Woody | 770-920-2456 |

Section E

Application and Participation Statement.

On behalf of the Blue Circle Aggregates Inc.'s

Douglasville Quarry,
[my facility],

I certify that

- I have read and agree to the terms and conditions, as specified in the *National Environmental Achievement Track Program Description* and in the *Application Instructions*;
- I have personally examined and am familiar with the information contained in this Application (including, if attached, the Environmental Requirements Checklist). The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Achievement Track EMS requirements, including systems to maintain compliance with all applicable federal, state, tribal, and local environmental requirements, in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all applicable federal, state, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable federal, state, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Achievement Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Signature/Date

Printed Name/Title Woody Sanderson, Vice President of Operations, Blue Circle Aggregates Inc.

Facility Name Blue Circle Aggregates Inc., Douglasville Quarry

Facility Street Address 6505 Bankhead Highway
Douglasville, GA 30134

Facility ID Numbers

The National Environmental Performance Track is a U.S. Environmental Protection Agency program. Please direct inquiries to 1-888-339-PTRK or e-mail ptrack@indecon.com. Mail completed applications to:

Section C – Tell us about your past and future commitments.

1. Describe past achievements

| Facility | Categories | Aspect | Previous Level | Current Level | (i.)How is this an improvement? (ii.) How did you achieve this improvement? |
|--|-------------------|---------------------------------|---|--|---|
| Douglasville Quarry Achievement #1 | Energy Use | Total Energy Use | In 1999, total energy use was 0.0461 gJ/ton. In January and February, 2000, energy use was 0.0464 gJ/ton and 0.0418 gJ/ton, respectively. | Beginning in March 2000, energy use decreased dramatically, to 0.0311 gJ/ton, 0.0343 gJ/ton, 0.0359 gJ/ton and 0.0379 gJ/ton in March, April, May and June 2000, respectively. This trend is continuing. | (i) Energy use per ton produced has decreased about 25% while production is increasing. (ii) This reduction is a result of two improvements made in February/March 2000. First, the jaw crusher was moved closer to the rock face. Second, the less efficient plant 02 (portable plant) was disassembled, and the more efficient Plant 01 was brought online. |
| Achievement #2 | Air Emissions | Emissions of Particulate Matter | 38 lbs/hour of PM10 fugitive dust | 20 lbs/hour of PM10 fugitive dust | (i) Reduced particulate matter leads to improved air quality. (ii) A high-pressure water dust suppression system was installed, which controls dust more effectively and uses less water than the typical sprayers. Also, redesign of plant contributes to dust reductions. |
| Achievement #3 | Waste | Total Solid Waste – Pond Sand | 15% - 20% of total production is unwanted by-product in the form of pond sand. This | In 2000, 115,000 tons of pond sand were re-used as fill for a commercial | (i)The overall waste stream was reduced and waste material re-used as building material. (ii) Pond sand, and unwanted by-product, was used by a developer |

| | | | | | |
|----------------|-------|-----------------|---|---|--|
| | | | waste is usually disposed on site. In 1997, approximately 150,000 tons of pond sand was disposed on site. | development. | as fill in a construction site. |
| Achievement #4 | Waste | Petroleum waste | | All petroleum-contaminated waste water collected in the vehicle service areas is biologically treated to degrade the hydrocarbons. Water is re-used for equipment cleaning in a closed loop system. | (i) No hydrocarbon/ petroleum waste requiring disposal is generated from the vehicle service area. Water is conserved. (ii) Biological treatment is conducted by metering in micro-organisms to degrade hydrocarbon waste. Waste water is reused for equipment cleaning in a closed loop system. |

Section C – Tell us about your past and future commitments.

2. Describe your future commitments

| Facility | Aspect a. What is the Aspect? | EMS b. Is this aspect identified as significant in your EMS? | Current Level c. What is the current level? | Improvement d. What is the commitment over next 3 Years? | How e. How will you achieve this improvement? |
|---|---|---|---|--|---|
| Douglasville Quarry Commitment #1 | Emissions of Greenhouse Gases | Yes | 0 low emissions vehicles in “on-road” fleet. | 100% of new “on-road” fleet purchases will be low emissions vehicles such as bi-fuel vehicles or dedicated propane vehicles. (This goal is beyond the requirements of the Clean Fuel Fleet Program.) A central propane fueling system will be installed. | Bi-fuel (gasoline and propane) vehicles will be purchased. A propane fuel tank will be installed for central fueling. High emissions vehicles will be taken out of fleet. |
| Commitment #2 | Total Energy Use | Yes | 0. 0379 gJ/ton of production (June 2000) | 2% <u>per year</u> reduction in total energy use per ton of production. | Through use of the MSE 2000 energy management system. |
| Commitment #3 | Emissions of Particulate Matter | Yes | 756 lbs per year of PM10 fugitive emissions from stock pile due to wind erosion | A 70% reduction in PM10 fugitive emissions from stock pile due to wind erosion - resulting in 227 lbs of PM10 per year, a reduction of 529 lbs/year. | Installation and use of stock pile sprayers to control emissions due to wind erosion. |
| Commitment #4 | Habitat Impacts | No | 0 acres lake and wetlands. | Creation and enhancement of wildlife habitat, including wetlands and a 7-acre lake. This will be done in | Working with City and County on a cooperative project to build a lake and associated wetlands on |

| | | | | | |
|--|--|--|--|--|--------------------|
| | | | | conjunction with the City of Douglasville and Douglas County for educational and recreational opportunities for the community. | facility property. |

National Environmental Achievement Track

Environmental Requirements Checklist

The following Checklist is provided to assist facilities in answering Section A, "Tell us about your facility," Question 6. The Checklist is given to help facilities identify the major federal, state, tribal, and local environmental requirements applicable at their facilities. The Checklist is not intended to be an exhaustive list of all environmental requirements that may be applicable at an individual facility.

If you use this Checklist and choose to submit it with your application, fill in your facility information below and enclose the completed Checklist with your application (see instructions).

Facility Name Blue Circle Aggregates, Inc.
Facility Location: Douglasville Quarry
Facility ID Number(s): Air Quality Permit No. 1423-097-0003-S-02-0
(attach additional sheets if necessary) NPDES Permit Nos. GA0030899 and GAR000000
Surface Mining Permit No. 021-89

Air Pollution Regulations
